

WATER FACTS

Aur'a Gold Water is held to the highest standards of water quality. That is why since its bottling began in 2016, Aur'a Gold Water is winning taste awards, and winning big! The International Taste Quality Institute in Brussels, where the finest bottled waters from around the world compete, awarded Aur'a Gold Water the Superior Taste Award in 2016 and 2017. Take a look at the chemical properties of our water, and if this is your thing, you can see our water is a perfect match for the human body.

ORGANOLEPTIC PROPERTIES

Color: colorless, no colloids, no sediment, satisfactory for consumption, no abnormal changes.

Odor: odorless, no abnormal changes.

Taste: tasteless, no peculiar taste, no abnormal changes.

CHARACTERISTICS	AUR'A RESULTS	STANDARD VALUE	TESTING METHOD
PH (25 ° C)	8.25	6.5 - 9.5	SR ISO10523:2012, EPA METHOD
CALCIUM(Ca)	69.9 mg/dm ³	-	SR EN ISO 11885:2009
MAGNESIUM (Mg)	23.7 mg/dm ³	-	SR EN ISO 11885:2009
POTASSIUM (K)	1.74 mg/dm ³	-	SR EN ISO 11885:2009
SODIUM (Na)	4.13 mg/dm ³	200	SR EN ISO 11885:2009
NITRITES	<0.025 mg/dm ³	0.5	SR EN 26777:2006,EPA METHOD
NITRATES	1.48 mg/dm ³	50	SR EN ISO 10304-1:2009,EPA METHOD
DRY RESIDES (180 ° C)	390 mg/dm ³	-	STAS 9187:1984,EPA METHOD
CHLORIDES	2.25 mg Cl ⁻ / dm ³	250	SR EN ISO 10304-1:2009,EPA METHOD
GOLD (AU)	0.012±0,002 µg/L	-	ICP-MS – test report no.320 C/12.04.2016
SILVER (AG)	0.040±0,001 µg/L	-	ICP-MS – test report no.320 C/12.04.2016

PHYSICAL AND CHEMICAL PROPERTIES determined by WESSLING Romania S.R.L. Laboratories Excerpt from the WESSLING test reports no. 1601562 / 26.04.2016.
